

## A first half-year in preparation for 2007 Turnover continues to rise in line with Q1: +1%

Afone Group generated a half-yearly turnover (at 30 June) of €45,370K, up by 1% on the same period in 2005 where turnover stood at €44,953K.

On a constant consolidation basis, an improvement can be noted on Q1 with a 1-percentage-point rise from -8% to -7%.

It can be added that turnover for 2005 included non-recurring operations involving the upgrade of electronic payment software to meet CB 5.2 security standards.

Furthermore, the second half-year is the highest contributor to turnover on a constant basis.

With respect to turnover breakdown by business, it must be emphasized that the telecoms operator business grew by 43% on a current consolidation basis, rising from 18 to 22% of total turnover.
