

Fine activity improvement: a 3rd quarter with growth of +18%

In the 3rd quarter of 2008, the sales figure of the AFONE Group amounted to €17,315,000, versus €14,620,000 in 2007.

This favourable development is growing from quarter to quarter, notably thanks to the success of the mobile offer:

Over the first 9 months of the year, the sales figure amounted to €49,659,000, i.e. an improvement of +9%.

90.35% of the sales figure derives from the Telecom activity, with the electronic payment flows (previously posted in the establishment of stocks UGT) having become secondary to the telecom flows, as indicated in the half-yearly report audited by the Group's Statutory auditors.

Confirmation of the 2008 forecast

As announced in the last two quarterly press releases respectively published on 23 July and 25 September 2008, the annual sales figures should surpass that of the previous year.
